

Accumulation value of your annuity

	This contract year
Beginning accumulation value on February 27, 2017	\$172,439.93
Interest credits	\$15,432.70
Partial surrenders	-\$13,999.92
Rider charges	-\$1,824.96
Accumulation value on February 26, 2018	\$172,047.75

Your accumulation value has earned an average of 5.90% each year. This rate includes your 6.00% premium bonus and all fixed and/or indexed interest credited to your accumulation value, and includes any contract charges - such as rider charges or partial surrender charges - deducted from your accumulation value.

You have paid \$173,206.14 in premiums since you purchased your annuity and the total amount of any partial surrenders, partial surrender charges, simple withdrawals and cumulative withdrawals is \$41,999.76. The difference between these two amounts is your net premium, which is \$131,206.38.

How your accumulation value is allocated

If you'd like to make changes to your allocations, please complete the Request to Change Allocations form included with your statement and return to us before March 20, 2018. If we don't receive your changes by that date, your changes will not take effect until your next contract year.
